

Dr
Maha
Khan

Dr Maha F Khan graduated as a medical doctor in 2001 and started training in psychiatry in 2007 with North Essex Partnership NHS Foundation Trust. She relocated to Australia in 2021 and since her move has managed to attain fellowship of the Royal Australian & New Zealand College of Psychiatrists (Oct 2022).

Dr Khan has wide experience of working in different psychiatric sub-specialties ranging from Child and Adolescent Psychiatry to Old Age Psychiatry but she has expertise in dealing with Working-Age Adults.

Dr Khan has extensive experience of working, using the bio-psycho-social model and her work with personality disorders intensive treatment team allowed her to gain valuable experience in the psychological domain which she uses in her routine assessments for the benefit of her patients.

Dr Khan has wide experience of working with people with the following psychiatric illnesses:

- Depression
- Generalized Anxiety Disorder
- Phobias
- Insomnia
- Schizophrenia
- Organic & Non-organic Psychosis
- Drug-induced psychosis
- Schizoaffective Disorder
- Bipolar Disorder
- Adjustment Disorder
- Disorders of Adult Personality and Behaviour
- Adult ADHD Assessment & Treatment
